About Noor Al-Sabah Peace Foundation

Noor Al-Sabah Peace Foundation - Noor Al-Sabah Peace Foundation(NASPF) is an autonomous, voluntary non-governmental, non-partisan and non-profit organization envisioning upholding, protecting and enforcing the human rights of all under-served communities in India and in the world for an equitable society. Established in 2025, the Noor Al-Sabah Peace Foundation(NASPF) works progressively to attain the aim of advocating the 'Human Rights' of citizens in India and abroad. Headquartered in Hyderabad, Telangana, India NASPF works with a global focus with its partners in many countries for advocating the human rights of individuals. We strive to bring about the holistic social development of people of various demographics. NASPF is also actively engaged in creating legal and human rights awareness among the public and in particular the underprivileged sections of the society. Our knowledge capital is formed by strong research and advocacy wing which impanels domain experts, legal experts, think tanks, and academia.

Noor Al-Sabah Peace Foundation(NASPF) is a leading worldwide organization which advances action on 'Human Rights' issues for citizens. We believe in the philosophy of "Vishav ka kalian Ho" meaning "The World Is One Family". Our work is aligned with this core value of this philosophy and with vision of the United Nations. All our work is directed towards creating a better world for the future of humanity through a plethora of comprehensive projects.

As the Chairman of the Noor Al-Sabah Peace Foundation(NASPF), I am committed to upholding and defending the fundamental rights and dignity of every individual around the globe. I am deeply honored to explain our mission, rooted in the principles of justice, equality, and dignity for all, has never been more crucial in today's complex and interconnected world. We work tirelessly to promote equality, justice, and peace, striving to create a world where human rights are respected, protected, and accessible to all. Together, we can make a positive difference in the lives of countless people, ensuring a brighter and more equitable future for generations to come.

MISSION at NASPF

- We will come to the aid of all those whose Human Rights have been infringed and we will try to get them justice as enshrined in the Constitution of India. To make people aware of their basic rights we will organize awareness camps, one to one discussion, hold conferences, seminars, cultural evenings, Nukkad Nataks and all that is required from time to time.
- In other words, we will work for the protection of Human Rights of our citizens. We will help empower people to realize their basic rights and assist all those responsible for upholding such rights. In short, we will reach out to all those affected people in getting justice to which they have been guaranteed to be protected under the constitution of our country.

NOOR-AL SABAH PEACE FOUNDATION

* Establishment of the Mission and about it *

NASPF United Kingdom was started in the year 2025 from the holy land of UK which has been the center of spiritual, communal and social reform life of Gurus, Pirs, Saints and spiritual great men since time immemorial. This mission is dedicated to the entire humanity, nature, society and national interest. Its objective is to create awareness among people through the propagation of the philosophy of peace, harmony and communality in the society and to eliminate negative thinking like fundamentalism, extremism, separatism, casteism, Naxalism, hatred and discrimination spread in our society. Along with this, people, especially young students, are to be alerted about these negative thoughts which are becoming fatal for our society and country and connect them with positive thinking, so that in future this antisocial and anti-human negative thinking can be eliminated from our society and country. Along with this, connecting the youth with the mission of strengthening the integrity, democracy, constitution, diversity of the country and at the same time making them aware and responsible towards the social structure and political system of the country is part of the promotion of our mission. Our organization has been continuously serving this mission since 2015. Which mainly includes connecting with the young student class through special peace programs in educational institutions, schools, colleges and universities, apart from interacting with the general public through religious, social, cultural and literary conferences? It is worth mentioning that our mission was officially established in March 2025 during the International Peace Day program from the land of Telangana State India in the presence of great men of all religions, intellectuals, social workers. The objective of which was to make people, especially 'young' students responsible, aware and loyal citizens towards the entire humanity, nature, family, society, country and the world, this will be the main part of our mission promotion.

*** Ideology of NASPF***

Series No. 2

Title: Noor Al Sabah Foundation

The ideology of NASPF Mission United Kingdom is inspired by the relationship between man and nature, that when man did research by understanding his knowledge and natural science, then its results were positive for the whole humanity. But when man did research by tampering with nature for his own benefit, then the results was very fatal, which harmed nature and humanity. It is this thinking that is pushing humanity towards destruction by man, the ideology of our mission is to change it so that our society becomes humanitarian, understanding natural laws, enlightened, rational, just, aware and responsible society. And we leave a better and livable world for our future.

NOOR-AL SABAH PEACE FOUNDATION

NASPF WORK

Title: NASPF

The aim of the NASPF mission is to make the society, especially the young students, more aware and responsible about their rights and duties towards their family, society and country, so that when the young students go to public service in the country and society during their profession after completing their education, they should be eager to play a positive role for the family, society and country, and this is the mindset that will prove to be a boon to eliminate greed, bias and jealousy from our society and system, and the sense of trust, responsibility, justice, impartiality, fearlessness and social service will increase in the people. Along with this, encouraging people, especially the youth, towards human values and connecting them with nature is an important part of the propagation of our mission. Apart from this, giving maximum information to the citizens of the country about the country's political system, social structure, democratic system, constitution, diversity and promoting the will to connect, understand and strengthen these systems in them is also an important part of our mission campaign, because only an aware, responsible, enlightened, capable and healthy society can become a developed nation.

NASPF takes the objectives and ideology of its mission to the group community through propaganda policy. This includes propaganda through religious, social, cultural and literary conferences along with educational programs in schools, colleges and universities. In these programs, the people who come are explained about the agenda of the program and they are also made aware of the ideology and objectives of the mission. Along with this, administering the oath of the mission to the people involved in the program is an important part of the program. It is worth noting that every preacher of this mission preaches as a preacher according to his voluntary, national interest, social service, humanity dedication and the ideology of the mission and understanding and adopting the great idea of great men that first change yourself and then change the world.

NASPF Mission is currently always ready to work on issues related to society and national interest along with propagating the ideology of the Mission through conferences, print and media, social media with the help of its organizational structure in the entire United Kingdom. Today, the work of the Mission is going on in almost all the states and union territories of the country, due to which people concerned about society and national interest and humanity loving people are joining this Mission. Therefore, from the very first day of the Mission, it has been thinking that through its ideology, a positive thought and energy has to be brought in the personal, family, social life of man, so that our nation becomes number one in the list of peace loving countries in the world, because only a peaceful, aware, prosperous, enlightened, educated and healthy society can imagine a developed nation. Under this, in future, the Mission will give this message to the world at the international level in accordance with its ideology that today, whatever is being done by man to man, And that selfish economic thinking which is destroying nature itself, due to which there is a race to make, buy and sell deadly weapons that can destroy all humanity, this dangerous thinking has to be boycotted on the entire world platform and people have to be mobilized and connected towards this resolution all over the world!

The right to life is a fundamental NASPF that is recognized and protected in various international treaties, conventions, and national laws. It is often considered the most basic and essential right because without the right to life, all other rights become meaningless. The right to life implies that every individual has the inherent right to live and that no one should be arbitrarily deprived of their life. The right to life has been enshrined in various international documents, including:

Universal Declaration of Human Rights (UDHR): Adopted by the United Nations General Assembly in 1948, the UDHR recognizes the right to life in Article 3: "Everyone has the right to life, liberty, and security of person." International Covenant on Civil and Political Rights (ICCPR): This treaty, also adopted by the United Nations

The right to health is a fundamental human right that has been recognized by various international and regional human rights instruments. It encompasses the idea that every individual has the right to enjoy the highest attainable standard of physical and mental health, without discrimination or distinction of any kind. The right to health is an essential component of the broader right to an adequate standard of living and a crucial element in achieving a dignified and fulfilling life.

Key aspects of the right to health include:

Accessibility: The right to health means that health facilities, goods, and services should be accessible to all, without discrimination. This includes both physical accessibility (e.g., proximity to health centers) and economic accessibility (e.g., affordable healthcare services).

"Right to Justice" refers to the fundamental legal principle that every individual has the right to a fair and impartial legal process, access to legal representation, and a fair trial when accused of a crime or involved in a legal dispute. This includes the right to due process, legal counsel, and a presumption of innocence until proven guilty.

Right to Justice

The right to education is a fundamental human right recognized by international law. It is enshrined in various international treaties and declarations, most notably in the Universal Declaration of Human Rights (UDHR) adopted by the United Nations General Assembly in 1948. Article 26 of the UDHR states: "Everyone has the right to education. Education shall be free, at least in the elementary and fundamental stages.

The right to privacy is a fundamental human right that encompasses an individual's right to be free from unwarranted intrusion into their personal life, family, home, correspondence, and private affairs. It is widely recognized as an essential element of individual freedom, dignity, and autonomy. The right to privacy is protected by various international and national laws, constitutions, and conventions. The concept of the right to privacy has evolved over time, largely due to advancements in technology and changes in societal norms. In the digital age, issues related to privacy have become increasingly complex, especially with the rise of the internet, social media, and surveillance technologies.
